

Introducing
the new Buccaneer
4000 Series Connectors

The all new 4000 Series is our most compact and versatile connector to date. It's perfect for power and data applications across a wide variety of markets requiring fast, dustproof and watertight connections.

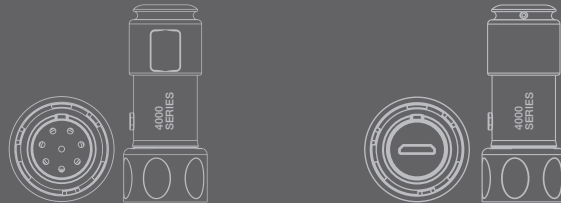

Specifications

Power

- Rapid twist lock coupling
- 3, 8 & 12 pole power up to 600V, 13A
- Sealed to IP66, IP68 and IP69K when mated
- Solder and crimp contacts available

Data (Micro USB)

- Data rates up to 480Mbps
- USB V2.0 performance
- Secure, proven locking system
- Tamperproof Construction
- EN60068-2-52 Test Kb Salt Mist (Cyclic) Marine Severity Level 1

Why Choose the 4000 Series?

- Simple, secure and compact connector with efficient locking mechanism.
- Achieves a watertight and dustproof seal in less than a quarter turn.
- Long operating life (Guaranteed to 1000 mating cycles)
- EN60068-2-52 Test Kb Salt Mist (Cyclic) Marine Severity Level 1
- Flame Retardant moulding material - Polyamide UL94-V0
- Withstands a high degree of physical impact
Vibration tested to EN60068-2-64:2008 Test Fh
Shock and Bump tested to EN60068-2-27:2009 Test Ea
- Colour coded O-rings & washers for easy connection identification

Key Applications:

Marine

Unmanned Surface Vehicle (USV)
Dosing Pumps

Industrial

Water Quality System
Cattle Feeding Machines
Wash-down Scales
Smart Metering

Renewables

Solar PV Combiner Boxes

Recreation and Leisure

Event and Stage Lighting
Signage Illumination

Data & Telecoms

Wireless Data Loggers
Mobile Network Transmitter

Retail

RFID/Barcode Scanners

Transport & Infrastructure

Commercial Lighting
Illuminated Taxi Signs
External Building Lighting
Bathroom Control Panels
