

March 18, 2011

Dear Valued Channel Partner,

Due to the recent tragic events in Japan there is growing concern about worldwide disruption in supply of finished goods and raw materials. We feel confident that, at this time, the crisis will have no significant effect on our supply chain. As such, our supply of product to the market will also be unaffected for the foreseeable future. Alpha Wire will continue to support the channel with unparalleled delivery times and superior customer service.

Sincerely,

Konstantin Khitrik
Product Manager
Alpha Wire
