Dear Customers and Supply Chain Partners,

We are deeply saddened by the devastation caused by the Earthquake/Tsunami in Japan. We extended our sincerest sympathies to the sufferers and their families.

In response to the many requests we have received regarding the status of our operations please know that JARO's production facilities have not been effected by this situation. Our key production locations are in Shenzhen, Dongguan, & Kunsan, China.

We are carefully monitoring our key component suppliers to assure there is no disruption of future materials and will continue to keep you informed of any changes. Please feel free to contact me directly at any time with questions or concerns.

Best regards,

Dennis Eisen

Vice President of Sales
