To all LEMO USA Sales Reps, Distributors and Inside Sales,

This is to inform you that LEMO USA has done its due diligence and would like you and your customers to be advised that LEMO's production capabilities on our Connectors are not directly impacted by recent events in Japan. However, it is unclear as to what effect it will have on our cable assembly operations, if we are using Japanese made cables for assemblies. We will advise those individual customers as it is warranted.
