

"Stay Connected with Heyco" **Strain Relief Assembly Tools and Equipment**

## **New Strain Relief Assembly Guide from Heyco**

Now all of the various Tools and Equipment required for assembling Heyco Strain Relief Bushings onto the cable and into the panel can be found in one place, our new **Strain Relief Assembly Guide**. The Guide concentrates all of our SR Tools and Equipment as follows:

- Lockit™ SR Pre-Assembly Equipment – from the manually operated Headlock™ to the semi-automatic Autolock™, for all RDD and ST series Strain Reliefs.
- Lockit™ SR Pre-Assembly Equipment Directory, which shows all of the assembly options for our RDD and ST series Strain Reliefs, including equipment that meets European requirements. In this Directory please find the following **new** Pliers and Equipment:
  - P/N **0073 R 2300** Pliers for ST 200- and 300-series Lockit Strain Reliefs
  - P/N **ST17-90 Headlock** for RDD-90 200- and 300-series Lockit Strain Reliefs
  - P/N **ST19-90 Footlock** for RDD-90 200- and 300-series Lockit Strain Reliefs
- Original SR Assembly Pliers Instructions and Spare Parts, including instructions for Plier jaw opening adjustments and a new Spare Parts tabular chart for more convenient ordering.
- Original SR Bushing Assembly Pliers Directory and Jaw Settings Guide. This page of the Guide lays out which Plier to use with which Original Strain Relief, as well as the proper jaw opening for that Strain Relief. This page also clarifies the distinctions among the Pliers that overlap or appear to overlap ranges of our Original Strain Reliefs.
- Original SR Bushing Air Tool, Air Tool Jaws and Replacement Parts. This is similar to our related new **Power Components Catalog** page, but better describes and illustrates P/N **0T02**, the labor saving Air Tool **Bench Mount Kit**.

Concurrent with the release of the Guide are the following Tools, Equipment and Strain Relief Part **price reductions**:

- Air Tool for Original Strain Reliefs - reduced by 4%.
- P/N **0022 R 29 Pliers** for Original Strain Reliefs - reduced by 5%.
- Headlock™, Footlock™ and Autolock™ Semi-Automatic Pre-Assembly Equipment for Lockit™ RDD and ST series Strain Reliefs - reduced by 3% to 37%.
- Hand Pliers for Metal and Lockit™ Strain Reliefs - reduced from 33% to 64%.
  - Strain Relief Price Reductions on **select items**, down from 1.4% to 41%
  - Bell Mouth Strain Reliefs
  - Right Angle Strain Reliefs
  - Strain Reliefs for Flat Cables
  - Lockit ST Strain Reliefs

**For our domestic distributors we are also making the following markup array and quantity break changes to Tools and Equipment:**

- New Price Column Markup Array: Columns 4 thru 1 increase progressively from 1% to 5%.
- New Quantity Breaks: 50 pieces in C7, down from 100, for easier to reach discounts on all Tools and Equipment, but especially the popular R 29 Pliers.

**Finally, for our domestic distributors and as a companion to the Strain Relief Assembly Guide, we are offering our New Strain Relief Selector Guide Posters which will be available in a few weeks. These posters contain the following information:**

- Lay out our entire Strain Relief Bushing range, separated by Round and Flat Cables and sequenced by Wire size and Strain Relief functionality and assembly methods.
- Show the corresponding Mounting Hole Plugs.
- The poster for Round Cables includes a tabular chart for our Snap-in Strain Relief Cordgrips, which require *no assembly equipment at all*.

**To order your Strain Relief Selector Guide Posters** (For Flat and Round Cables), please contact your Heyco Sales or Customer Service Representative. Please note that it will be a few weeks before the posters are shipped to you.

**To download or order a hard copy of the Strain Relief Assembly Guide**, please visit our website at [www.heyco.com](http://www.heyco.com).
