Tubing Application News

**LEAD FREE
PVC TUBING NOW
AVAILABLE!**

Meet LEAD FREE Requirements with Insultab PVC Tubing

New *European Union* and *Automotive Industry* requirements mandate that all components must be free from lead and certain other materials.

To help you meet these requirements, Insultab is proud to introduce 4900LF PVC Sleeving and HS105LF Heat Shrinkable PVC Tubing. In addition to maintaining the high quality and physical characteristics you have come to expect in our standard product, these new LF products:

- Meet the European Union End of Life Directive.
- Do not contain any materials that are restricted or prohibited by GM, Ford or Daimler Chrysler.
