## Heilind Now Stocking the BT 3500 Battery-Hydraulic Hand Tool by Tyco Electronics

WILMINGTON, Mass., July 6 /PRNewswire/ -- Heilind Electronics, the largest distributor of interconnect, electromechanical and wire & cable products in North America, together with Tyco Electronics, the world's largest interconnect manufacturer, introduces the BT 3500 Battery-Hydraulic Hand Tool, the newest member to its power tool line up. The BT 3500 hand tool provides the operator with an impressive 3,500 pounds (15.6 kN) of crimping force in a compact, portable design.

The BT 3500 is an ergonomic marvel as its unique design positions the battery and pump in a separate unit which can be either worn by the operator in several different configurations or setup on a benchtop. The system comes with a standard shoulder strap; an optional belt and four-point harness are also available to permit a total custom fit. The small, rotatable crimp head delivers complete application flexibility and the ability to reach tight spaces, allowing the operator to easily find the most comfortable and efficient position for any job.

For more information about Tyco Electronics BT 3500 Battery-Hydraulic Hand Tool or to request the catalog, go to [http://www.heilind.com/products/tyco-electronics/Tyco\\_Electronics\\_BT3500.asp](http://www.heilind.com/products/tyco-electronics/Tyco_Electronics_BT3500.asp)

### About Heilind Electronics

Heilind Electronics ([www.heilind.com](http://www.heilind.com)) is a leading distributor of connectors, relays, switches, thermal management & circuit protection products, terminal blocks, wire & cable, wiring accessories and insulation & identification products. Heilind serves OEMs and contract manufacturers in the medical, industrial controls & equipment, non-automotive transportation, aerospace and telecommunications markets with 25 North American sales offices, two automated distribution centers and a highly versatile value-added center. In addition to the world's largest interconnect inventory, Heilind offers customers a complete portfolio of innovative logistics and supply chain management services including automated inventory management & auto-replenishment systems, on-line materials management tools and a full menu of electronic file sharing options.

### About Tyco Electronics

Tyco Electronics Ltd. is a leading global provider of engineered electronic components, network solutions, specialty products and undersea telecommunication systems, with fiscal 2009 sales of US\$10.3 billion to customers in more than 150 countries. We design, manufacture and market products for customers in a broad array of industries including automotive; data communication systems and consumer electronics; telecommunications; aerospace, defense and marine; medical; energy; and lighting. With approximately 7,000 engineers and worldwide manufacturing, sales and customer service capabilities, Tyco Electronics' commitment is our customers' advantage.
