Heilind Electronics Adds Tyco Electronics' New Corcom CU Series Ultra-Compact Power Inlet Filters for Telecom Racks

WILMINGTON, Mass., Feb. 25 /PRNewswire/ -- Heilind Electronics, the largest distributor of interconnect, electromechanical and wire & cable products in North America, has added Tyco Electronics' Corcom CU Series of power entry modules to its industry-leading tool-kit of circuit protection offerings, filling the need for small-form switched, inlet filters.

Corcom's CU series provides complete shielding and basic filtering for 1A to 15A applications in an extremely compact size ideal for equipment designed for popular 1U (1 3/4") height telecom equipment racks. The filtered design is available in standard and flanged mounting options as well as a rear mounting style. The unfiltered inlet snap-in versions are available in three different configurations to fit a wide variety of panel cut-outs and thicknesses.

In addition to rack mounted telecom equipment, the CU Series is ideal for consumer electronics, power supplies, routers, PCs, TVs, set-top boxes, or any application with limited panel space. All products are UL recognized, CSA certified, and approved. For product specifications on the Corcom CU Series, visit the Heilind Electronics' website at http://www.heilind.com/products/tyco-electronics/TE_Corcom_CU.asp or call (888)-411-3672.

About Tyco Electronics

Tyco Electronics Ltd. is a leading global provider of engineered electronic components, network solutions, specialty products and undersea telecommunication systems, with fiscal 2009 sales of US\$10.3 billion to customers in more than 150 countries. We design, manufacture and market products for customers in a broad array of industries including automotive; data communication systems and consumer electronics; telecommunications; aerospace, defense and marine; medical; energy and lighting. With approximately 7,000 engineers and worldwide manufacturing, sales and customer service capabilities, Tyco Electronics' commitment is our customers' advantage. More information on Tyco Electronics can be found at <http://www.tycoelectronics.com/>.

About Heilind Electronics

Heilind Electronics (www.heilind.com) is a leading distributor of connectors, relays, switches, thermal management & circuit protection products, terminal blocks, wire & cable, wiring accessories and insulation & identification products. Heilind serves OEMs and contract manufacturers in the medical, industrial controls & equipment, non-automotive transportation, aerospace and telecommunications markets with 25 North American sales offices, two automated distribution centers and a highly versatile value-added center. In addition to the world's largest interconnect inventory, Heilind offers customers a complete portfolio of innovative logistics and supply chain management services including automated inventory management & automatic replenishment systems, on-line materials management tools and a full menu of electronic file sharing options.

Corcom, TE (logo) and Tyco Electronics are trademarks of the Tyco Electronics group of companies and its licensors.
