Heilind Electronics is a leading distributor of components to the alternative energy market. Our warehouses have the industry's largest inventory of interconnect products from pre-eminent manufacturers. Our high-quality products for the solar, wind and EV/HEV industries include the following:

- |                   |                              |                 |
|-------------------|------------------------------|-----------------|
| Cable Assemblies  | Fiber Optics                 | Relays          |
| Cable Ties        | Fuses & Fuse Holders         | Sensors         |
| Charging Stations | Grounding Products           | Shrink Tubing   |
| Combiner Boxes    | Labels & Printers            | Switches        |
| Connectors        | Lightning & Surge Protection | Terminal Blocks |
| Contactors        | PV Connectors                | Wire & Cable    |
| Cord Grips        | PV Tooling                   | Wire Management |
| Enclosures        |                              |                 |

**Heilind's Alternative Energy Manufacturers include:**

- |                     |                 |                            |
|---------------------|-----------------|----------------------------|
| 3M                  | Delta           | Richco                     |
